

UPDATE Pioneer

The update must be done with the engine running so as not to have interruptions from the low-charge battery, with consequent problems

SD 1 = 2GB (or other format) SD 2 = 8 GB

SD1 have haker inside / SD 2 have new maps inside

STEP 1:

Turn on your Pioneer and wait for it to start and then start navigator, then insert the 2gb SD card into your Avic and the hack will immediately start to remove the lock from your device, and then proceed with the update.

PRESS ANY KEY TO START OR TURN OFF IGNITION TO ABORT “

NOW YOU MUST REWARD ANY KEY TO START THE UNLOCKING FOR THE UPDATE

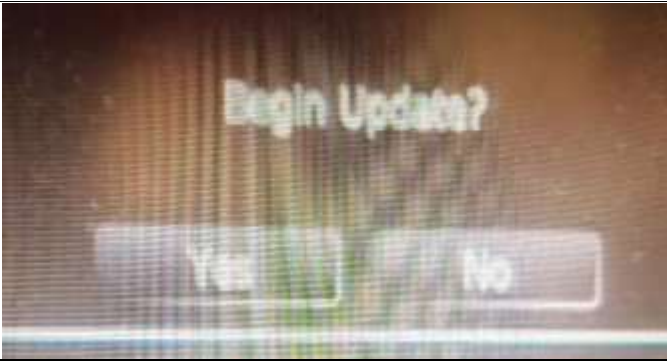

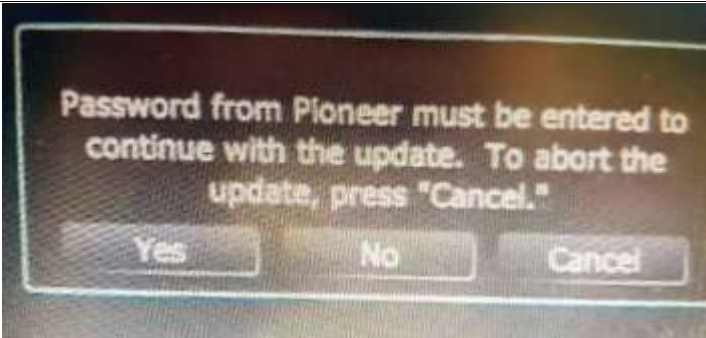

As you write this at the bottom: **NOW EJECT YOU SD AND INSTAL YOUR MAP UPDATE**

Turn off the car, so the car radio turns off, once the radio is off, remove the 2gb SD 1

Then turn on the car radio (start engine in your car) and wait for the Pioneer to start and then start navigator, now insert the 8gb SD 2 and then it will ask you to update ... See STEP 2

STEP 2 :

Then removed the SD 1 (2gb), put in the SD 2 (8gb) and this appears:

	Press YES to start the update
	Press YES to go ahead and type in the password
	Enter the following Password: PASSWORDPASSWORD , then press OK As in the picture!
	Press YES to Reset the Navigator and to start loading the New Maps

Now it becomes the all-black screen and waits for a few seconds then the system restarts and starts loading the new maps, sets us up from 30 minutes upwards.

Updatinig finished loading the maps go to settings and change the language and the voice and put the Italian ones on.

Once the maps have been updated, it is possible to update the TTS entries, that is, the entry with directions and street names by following these steps:

PUT THE SD 1, the 2 GB one and follow the instructions with photos:

To UPDATE the AUTOVELOX :

**i have for each country !
ask me later !!!**
